

CUSTOM ENCLOSURES

Lectrus custom cabinets and consoles are individually designed to house an extensive array of low voltage electrical controls and devices, and protect them from rugged industrial conditions. We supply companies around the globe with enclosures requiring unusual dimensions and shapes, engineering each to order.

Our enclosures are reliable, durable and cost-efficient, giving you options for materials, mounting and space requirements.

RELIABLE QUALITY

Lectrus custom enclosures are built using rugged, high quality metals for long-lasting performance:

For Durability and Corrosion Resistance

- Mild steel, galvanized metal, stainless steel or aluminum alloy
- Epoxy primer with polyurethane topcoat for durability and corrosion-resistance
- Thermal and acoustic insulation options
- Constructed with computer numerically controlled, or CNC equipment/as required.

Certification and Compliance

- NEMA 3R, 12, 4 or 4X available

CUSTOMIZATION AND EFFICIENCY

Lectrus' enclosures are truly customized – we build every enclosure from the ground up. With computer-automated cutting and punching equipment, our ability to design and manufacture your enclosures to exact specifications and low tolerances is exceptional, ensuring overall operating efficiency and safety.

Enclosures can be wall or floor mounted, wrap-around or stand-alone units. Additional options include:

- Custom cut-out patterns, sub-panels, windows
- Various rails
- Shelves or rack configurations
- Custom gasket materials and/or hardware

When you consider the combinations of custom colors and finishes, sizes, shapes and compositions you can choose from, your options are virtually limitless.

And when you want the ultimate convenience, we can custom fit your enclosures into a Lectrus equipment or operator center.

CHOOSE LECTRUS

Our company and our products are reliable, dependable and innovative. With more than forty years of history and experience, we've worked hard to develop a range of products that are adaptable to a variety of different markets and an array of different needs.

When you choose a Lectrus custom enclosure or cabinet, you're getting a strong foundation that can literally move you.

We are your customized project solution – Engineered to Spec. Built to Last.
